**Consultations:** These sessions are designed to show you at your best. I have created several sessions to give you the level of service that will work for you.

During the session, we will make sure you are happy with your image. All images will be posted to a website, giving you some time to make your selection.

All Sessions include your web site portrait. No other purchases are required. Satisfaction guaranteed or your money back.

## Notes

If you are late, your session may not start on time, but it will end on time so we do not interfere with the following session.

**Clothing:** Solid colors, no patterns or stripes. Earth colors work best. No turtle necks. Plunging necklines might not be your best choice. All jerseys need a sleeve. Makeup lightly applied. Be sure to bring your brush..

**Outdoors:** Dress for the environment. You should look like you belong outside. I prefer earth tone colors.

If in doubt, bring your outfits and we will make the choices at the studio.

# Helpful Hints for Your Session

## Your Session

Is designed to give you a great image for your web site listing. Facebook images are noticeable when looking at a portrait studio image versus your standard snap shot. For dating sites, you should absolutely present a good image. Look at your ad and then compare it to someone who posted a professional portrait. Is their a big difference? Why isn't that you?

With every session, you get a guarantee of a quality image. For those who would like more time, more attention, sessions have been designed to give you the attention you desire.

## Outfits

Solid colors, no patterns or stripes. Tutleneck sweaters and blouses tend to add weight to the neck. Plunging necklines sometimes take attention away from the face. If in doubt, bring your outfits and we will help with your selection.

## Outdoor Sessions

These sessions are available and quotes are available.

## Retouching

All finished poses are retouched. Normal retouching is blemish removal, lighten under the eyes, soften the skin. This is approximately 5 minutes of my time. Additional retouching is billable and quotes are available on request. All retouching is reasonably priced and you will always get an estimate which is based on your requests.
